About the Cloud Security Alliance

- Global, not-for-profit organisation
- 200 member driven organization with over 48,000 individual members in 64 chapters worldwide
- Building best practices and a trusted cloud ecosystem
- Agile philosophy, rapid development of applied research
 - GRC: Balance compliance with risk management
 - Reference models: build using existing standards
 - Identity: a key foundation of a functioning cloud economy
 - Champion interoperability
 - Enable innovation
 - Advocacy of prudent public policy

"To promote the use of best practices for providing security assurance within Cloud Computing, and provide education on the uses of Cloud Computing to help secure all other forms of computing."

Cloud BARRIERS

- (Perceived) Loss of control
- Lack of clarity around the definition and attribution of responsibilities and liabilities
- Difficulties achieving accountability across the cloud supply chain
- Incoherent global (and even sometimes regional and national) legal framework and compliance regimes

....and more barriers

- The lack of transparency of some service providers or brokers
- Lack of clarity in Service Level Agreements
- Lack of interoperability
- Lack of awareness and expertise

In 3 words: **LACK OF TRUST**

“Let’s try it once without the parachute.”

HOW DO WE BUILD TRUST & TRANSPARENCY?

Information sharing

The OCF structure

► The CSA Open Certification Framework is an industry initiative to allow global, accredited, trusted certification of cloud providers.
