CYBERSECURITY MALAYSIA JOB FAIR 2nd – 3rd APRIL 2021 @ MENARA CYBER AXIS

CYBERJAYA (2 APRIL 2021) - The COVID-19 pandemic has affected our lives across the board. The unemployment rate in many countries has increased into a double digits and economies have been badly hit due to the restrictions imposed on travel and business. According to Department of Statistics Malaysia, the unemployment rate is now the highest in a decade at 3.9% as people saw their livelihoods affected amid COVID-19 and the Movement Control Order (MCO).

Today, more people are using technology dan the internet to confer, do business, study and socialize on a scale never seen before. Along with the advantages, there is also risks on the misuse of technology and the internet. Furthermore, cyber threats are becoming increasingly sophisticated resulting in a staggering demand for skilled cybersecurity professionals to combat these threats and manage cyber defences.

“The employment outlook for cybersecurity jobs is impressive with cybersecurity fast becoming one of the most lucrative careers in Information Technology sector. To streamline human resource matching between cybersecurity organisations and practitioners, under CyberSecurity Malaysia Collaboration Program (CCP) we organise a two-day job fair to address the emerging supply shortage of cyber security professionals and promote cybersecurity as a career.” said Dato’ Ts. Dr Haji Amirudin Abdul Wahab FASc, Chief Executive Office, CyberSecurity Malaysia.

The CyberSecurity Malaysia Job Fair is held for two days on 2 and 3 April 2021 at Menara Cyber Axis, Cyberjaya. The fair hosts sixteen (16) companies and offers more than 1,000 cyber industry job opportunities. This job fair is an exposition for employers’ recruiters to meet with prospective job seekers.

Securing Our Cyberspace

“Opportunity meets demand and in a crisis, opportunities are created for those willing and able to meet that demand. This is the circumstance we find ourselves in now with cybersecurity and the consequences of a global pandemic.” said Dato’ Ts. Dr Haji Amirudin.

The realities of COVID-19 bring to bear renewed and reimagined need for a trained workforce of STEM technology professionals. Working across all economic sectors, the common denominator for each job is cybersecurity: its analysis, deployment, implementation, and maintenance.
