### BUILDING A CULTURE OF CYBER SECURITY

## Cyber Security Awareness For Everyone (CyberSAFE)

*CyberSAFE seminar for the public in Miri, Sarawak*

*Launching of CyberSAFE portal by YB Hj. Fadillah bin Yusof*

**MIRI, 9 AUGUST 2009 (SUNDAY)** – Learn how to protect yourself, your wealth, and your family in cyberspace from CyberSecurity Malaysia - the national cyber security specialist – whose representatives are here in Miri to promote public awareness on new criminal tactics and threats in the cyber space.

This initiative is part of CyberSecurity Malaysia's CyberSAFE programme with the objectives to educate and enhance the awareness of the general public on the technological and social issues facing internet users, particularly on the dangers of getting online.

The CyberSAFE programme in Miri is officiated by YB Tuan Haji Fadillah Yusof, the Deputy Minister of Science, Technology and Innovation (MOSTI). The programme with the theme: ***Let's Make The Internet A Safer Place*** is conducted at the Marriot Resort & Spa, Miri, Sarawak.

YB Fadillah, who also launched the new CyberSAFE portal [www.cybersafe.my](http://www.cybersafe.my) during the CyberSAFE seminar, said that he is grateful to CyberSecurity Malaysia for conducting public programmes in Sarawak. "They

Securing Our Cyberspace

[CyberSecurity Malaysia] were in Kuching last month. I hope they will also conduct similar programmes in other towns, so that more Sarawakians will benefit from CyberSAFE. MOSTI strongly supports this CyberSAFE programme as it is very much in line with MOSTI's aspiration to inculcate science, technology, and innovation in the daily lives of every Malaysian" he added.

CyberSecurity Malaysia's Chief Executive Officer (CEO), Lt. Col. Husin Jazri (Retired) said that this time around they are here to conduct Awareness Talks to school children. "We are targeting the school children for these Awareness Talks because they are internet-savvy and spend a lot of time surfing the cyber world. This makes them vulnerable to Cyber Stalking, Cyber-bullying and Online Harassment. Therefore, it is important to educate the children about how cyber criminals think and work so that they will know how to protect themselves from cyber crimes and threats".

Among others, the CyberSAFE at Miri today addresses the following topics:

- i) Good Online Chatting and Social Networking Habits
- ii) Safe Internet Banking & Online Shopping
- iii) Identifying Online Investment Scams, Identity Thefts, Online Fraud and Phishing Scams
- iv) Protecting Your Computer against viruses, worms and other Malware Infections
- v) Good Email Account Management and Dealing with Spam
- vi) Protecting privacy and personal information online

---
