For Immediate Release

CyberSecurity RSA Seminar Where The Experts Talk Security

Date: 9 Feb 2010 Time: 0830-1800 Venue: Tun Hussein Onn A, PWTC

Kuala Lumpur, 9 February 2010 – CyberSecurity Malaysia, the national cyber security specialist centre under the purview of the Ministry of Science, Technology and Innovation (MOSTI) Malaysia organizes the **CyberSecurity RSA Seminar** with the theme “**Where The Experts Talk Security**”, in Kuala Lumpur today.

Both the RSA and CyberSecurity Malaysia are working with some of the top IT companies and alliance partners like Cisco, Microsoft, Vmware and Firmus to drive an industry conversation to identify the necessary strategy.

According to the Chief Executive Officer of CyberSecurity Malaysia, Lt. Col. Husin Jazri (Retired): “The RSA Conference is a well-known brand and throughout its 19 year history has consistently attracted the world's best and brightest in helping drive the information security agenda worldwide with annual industry events in the U.S., Europe and Japan. This is the first time the RSA Conference is held outside U.S., Europe and Japan, albeit in a smaller version or mini-conference which we call **CyberSecurity RSA Seminar**. We hope in the next year or so we will be able to conduct a full version of the RSA Conference in Malaysia and create opportunities for Malaysians to learn about IT security's most important issues through first-hand interactions with peers, luminaries and emerging and established companies”.

The CyberSecurity RSA Seminar sessions address new and continuing threats to information security as well as responses to the increasing risk of security breaches and data exfiltration, identity theft, cyber terrorism and more. The seminar will provide information security professionals and managers with the most up-to-date information, tools, trends, legislation, and strategies for addressing information security issues.

Some of the notch speakers include Mr. Geoff Hayden (VP of RSA), Mr. Freddie Tan (Chief Security Advisor, Microsoft), and Mr. Uantchern (Regional Managing Partner, Deloitte).
